

Pest Control Advice

This leaflet provides some advice on what to do when you have a potential infestation in your communal areas. If you would like advice about pest control in your home, or to discuss anything in the leaflet, call us on 0141 331 6674.

Mice & Rats

If you see a mouse or rat in the communal area call Glasgow City Council (GCC) on 0141 287 1059 to arrange access. You should also notify us of the issue and we will notify other residents in the block. We will work alongside GCC until the issue is resolved. Homeowners will be responsible for their share of any treatment carried out.

Wasps

If you are experiencing serious problems with wasps give us a call on 0141 331 6674. We may use Glasgow City Council's service (that runs from June to September) or other specialist contractors. Do not try to move or disturb the nest yourself as you may provoke a swarm.

Bats

Bats are a protected species so must be treated differently. If you spot bats in and around your property call the Scottish National Heritage on 01463 725 165 and inform them of the situation. Please let us know as well. Do not attempt to disturb the bats as it is a criminal offence.
